

Instructions

1. Indicate which vehicles and pedestrians are important by drawing boxes around them. The clip below shows how it is done.

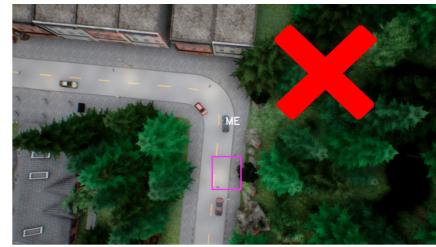

2. You can select as many vehicles or pedestrians as you like. However, draw one box for each vehicle or pedestrian you have selected, and keep the entire element within the box. Here are some examples of incorrectly drawn boxes.

Incorrect because it contains more than 1 vehicles.

Incorrect because it doesn't contain the entire vehicle.

Incorrect because it doesn't contain any vehicle.

6. You can practice drawing, editing and deleting boxes on this image.
